Resilient Corridors Project

Quick Facts

Countries	Haiti
Financial Institutions	World Bank (WB)
Status	Approved
Bank Risk Rating	A
Voting Date	2025-11-12
Borrower	Government of Haiti
Sectors	Transport
Investment Type(s)	Loan
Investment Amount (USD)	\$ 80.00 million
Loan Amount (USD)	\$ 80.00 million
Project Cost (USD)	\$ 80.00 million

Project Description

According to the development objective is to: (i) improve resilient rural accessibility in selected regions; and (ii) improve road connectivity on selected corridors.

The design of this project aligns with the best practices established by the Haiti Rural Accessibility & Resilience Project (RARP), which has shown that, under certain conditions and with targeted support, it is possible to improve rural connectivity and strengthen the resilience of transport infrastructure amidst political instability and gang violence. The proposed project aims to fulfill its objective through several activities under 5 components including: component 1: enhance resilience rural connectivity by restoring and upgrade bridges and rural road with a focus on climate resilience, component 2: rehabilitation of strategic corridors to enhance road connectivity and reduce impact of flooding, component 3: bridge asset management to ensure effective oversight and assess management, component 4: CERC; and component 5: Project management. The design and preparation of the proposed project incorporate the following considerations, based on lessons learned from the RARP: (i) Identification of a select number of technically straightforward investments that have minimal environmental and social impacts, can be delivered in the short term, and yield tangible benefits for the local population; (ii) Development of a contingency plan to ensure the provision of continuous implementation support during periods of heightened fragility and insecurity; (iii) Adoption of a flexible framework approach to manage security challenges and adjust activities in response to evolving security conditions; (iv) Reliance on a well-established and experienced Project Implementation Unit (PIU) with low staff turnover, which has a proven track record in executing similar project.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
