Sustainable Waste Management Project

Quick Facts

Countries	Bosnia and Herzegovina
Financial Institutions	World Bank (WB)
Status	Approved
Bank Risk Rating	B
Voting Date	2026-03-10
Borrower	Ministry of Finance and Treasury, Bosnia and Herzegovina
Sectors	Law and Government, Water and Sanitation
Investment Type(s)	Loan
Investment Amount (USD)	\$ 54.00 million
Loan Amount (USD)	\$ 54.00 million
Project Cost (USD)	\$ 55.56 million

Project Description

According to bank's website, the approved project aims to support an integrated solid waste management (SWM) approach which addresses not only gaps in physical infrastructure and equipment but also institutional and operational sustainability issues. Improving SWM services is essential to green and resilient urban development and sets the country on a long-term path towards a circular economy, in which resources are re-used and waste is minimized. The project is anticipated to yield multiple benefits of an attractive urban environment that supports economic growth and increased livability for residents while helping the country in its path toward climate goals. The project's integrated approach towards SWM is reflected in two main components: Component 1 (Institutional Strengthening for Solid Waste Management) through technical assistance will support institutional strengthening and capacity building at both entity and municipal/cantonal levels to improve framework conditions for solid waste management in BiH, assist the path towards EU accession, and support implementation of the BiH ESAP 2022-2032+. Focus areas include i) economic instruments for waste reduction, reuse, and recycling, and cost recovery and long-term financial sustainability, and ii) public information campaigns and incentives for individual behavior change. Component 2 (Support for Integrated Waste Management towards a Circular Economy) will finance the improvement of waste collection infrastructure and equipment (including source separation), the development of recycling and composting facilities and pilots, the construction and/or expansion of sanitary landfills and the closure and rehabilitation of dumpsites and unsanitary landfills.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
