Project Description

According to bank's website, the approved project targets 12 GFF partner countries. This project responds to the dynamic policy environment where governments and development partners--including the World Bank and GFF--are investing in health system strengthening and adolescent health initiatives. Through support from the World Bank and the GFF, these contexts have significant potential for structured opportunities for civil society and youth actors to meaningfully engage in national adolescent health and nutrition agendas, expand proven community-based innovations, and work with governments to institutionalize and scale these solutions across health financing, delivery, and national planning systems.
