Status	Proposed
Bank Risk Rating	C
Voting Date	2027-01-15
Borrower	Borrower not available at the time of disclosure
Sectors	Climate and Environment, Education and Health
Investment Type(s)	Grant
Investment Amount (USD)	$ 5.00 million
Project Cost (USD)	$ 5.00 million

Project Description

According to the Bank's website, the objective of this project is to strengthen the meaningful representation of IP&LCs in regional and global climate and nature dialogues, and to generate and disseminate knowledge that informs the implementation of NPC DGM country projects.

The Global Coordination and Knowledge Exchange Project ("DGM Global Project") supports Indigenous Peoples and Local Communities (IP&LC) across multiple countries involved in the CIF's Nature, People, and Climate (NPC) program to build their capacities and enhance their role in climate and nature-based initiatives. The four main project components include coordination and governance, global knowledge and learning, communications, and project management, monitoring and reporting. A Global Executing Agency (GEA) will be competitively selected to manage activities, coordinate with the national projects' stakeholders, liaise with global partners, and act as secretariat for the Global Steering Committee for the DGM program.

The NPC DGM program's design draws from the experience and impact of the previous DGM under the SCF's Forest Investment Program (FIP) and consists of:

• Country level DGM projects in the NPC selected countries receiving technical support from the World Bank and African Development Bank

• DGM global project, supervised by the World Bank, to support knowledge exchange, capacity building, and s trengthening networks and partnerships among IPs &LCs organizations in the NPC countries and beyond.

Early Warning System Project Analysis

The Project is not expected to generate any significant environmental, health and safety or social negative risks or impacts, as it is designed to generate positive outcomes by strengthening IP&LCs participation in nature and climate governance and enhancing their institutional capacity. Minor social risks relate to ESS2 (labor risks, SEA/SH risks) and ESS4 (SEA/SH risks, governance/potential elite capture risks and participation/inclusion of VMGs).

Investment Description

- World Bank (WB)

Total Project Cost: US$ 5.00 million

Climate Investment Funds (grant): US$ 5.00 million

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: https://www.worldbank.org/en/access-to-information/request-submission

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
