Project Description

According to the WB, the Project Development Objectives are to ensure payment continuity, secure private investment, and improve rail service for São Paulo Commuter Lines 11, 12 and 13.

The Project will establish a liquidity buffer supported by an IPF DDO to address unlikely shortfalls in the payment structure of the PPP for the brownfield commuter rail Lines 11, 12 and 13, ensuring payment continuity and sustaining private investment. This PPP, structured by IFC and signed in March 2025, transfers the operation of these lines from the public sector to a private concessionaire to attract new capital, accelerate modernization and expand service capacity.
