Project Description

According to bank's website, the approved project aims to build on investments being made under the current water Project for resilience and water security for Comoros. It will expand the current scope and include both water and sanitation investments, and geographically expand beyond the capital city of Moroni to include investments in Anjouan and Moheli islands. Building on the pillars of the parent MPA, the project will have a deliberate focus on leveraging regional knowledge and innovation to enhance sector reforms, governance and service delivery. The project will also support preparatory activities for potential interventions on solid waste management, which negatively impacts water quality, human health and tourism, all of which are critical elements for prosperity.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
