Project Description

According to the WB, the project is part of a larger Pandemic Fund financed regional entity proposal to support the Inter-American Institute for Regional Cooperation in Agriculture (IICA) to strengthen pandemic prevention, preparedness, and response capacities in Latin America and the Caribbean by reinforcing multisectoral collaboration at the human-animal-environment interface in order to reduce the risk of zoonotic outbreaks--particularly avian influenza--through a coordinated One Health Approach. The project will support IICA and its partners to strengthen regional governance and formal multisectoral continental coordination structures; enhance data integration and joint risk assessments, enabling countries to adapt to evolving threats; harmonize and modernize risk analysis, surveillance and genomic platforms across countries; and upgrade regional preparedness, biosecurity, and sustainable financing mechanisms for avian influenza and other high-risk zoonotic threats.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
