Project Description

According to the WB, the Project Development Objective is to improve and increase sustainable energy services in public infrastructure and households

The project will support investments in clean energy, energy efficiency and energy poverty reduction through (i) increased efficient and clean energy in public facilities (including municipal street lighting, health facilities and education facilities) across the country in urban areas and vulnerable rural communities through measures such as energy efficient street lighting, energy efficient indoor lighting, energy efficient air conditioning, thermal insulation, solar rooftop PV, and solar water heaters; and (ii) deployment of efficient cookstoves in vulnerable households, as well as (iii) solar rooftop PV in vulnerable households. These investments will be complemented by support to strengthen capacities and the energy efficiency regulatory environment, along with the development of Mexico's energy efficiency and energy services market.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
