Project Description

According to bank's website, the proposed project aims to address key infrastructure and sustainability gaps to increase access to and improve the quality of drinking water services in the capital of Baucau municipality, while strengthening resilience to climate change. It will finance the construction of a centralized water supply system, providing safely managed services to approximately 37,000 beneficiaries. This includes around 5,700 household connections delivering continuous water supply that meets international water quality standards. Currently, only about half of the population has access to water for a few hours per day, and without proper treatment.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
