Mozambique Resilient Recovery and Urbanization for Jobs Project

Quick Facts

Countries	Mozambique
Financial Institutions	World Bank (WB)
Status	Approved
Bank Risk Rating	A
Voting Date	2026-07-21
Borrower	Ministry of Finance, Republic of Mozambique
Sectors	Infrastructure, Law and Government
Investment Type(s)	Loan
Investment Amount (USD)	\$ 150.00 million
Loan Amount (USD)	\$ 150.00 million
Project Cost (USD)	\$ 166.00 million

Project Description

According to bank's website, the approved project aims to support recovery from flood-related shocks and strengthen the resilience of urban infrastructure and service delivery systems in Mozambique, with a specific focus on leveraging investments for protecting and creating jobs. The project targets populations exposed to recurrent flooding by improving access to resilient infrastructure and strengthening emergency preparedness, planning, and response systems. By integrating resilience principles, MozResilience seeks not only to restore damaged infrastructure, but also to reduce future losses, protect livelihoods, and create conditions for sustained urban services. The project is structured around mutually reinforcing components that combine infrastructure recovery with institutional strengthening. Component 1 focuses on the resilient rehabilitation and upgrading of flood-damaged urban infrastructure in selected municipalities, applying build back better principles in order to restore services, support local economies, and reduce future flood risk. Complementing this, the emergency preparedness and response component strengthens early warning systems, temporary shelters and coordination across national and municipal institutions to improve readiness and reduce losses during future events. A third component supports municipal capacity building, metropolitan coordination, and investment planning, including tools and diagnostics to improve asset management, attract financing, and maximize job impacts of urban investments. Together, these components establish an integrated platform for phased resilience investments, enabling municipalities to move from recovery toward longer term, investment led urban resilience and job creation.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
