Project Description

According to bank's website, the approved project aims to deliver rapid, structured support to vulnerable populations in Cote d'Ivoire during and after crises. Its beneficiaries encompass the broadly affected population, with particular attention to women, children, the elderly, persons with disabilities, and internally displaced persons (IDPs). The specific beneficiaries and geographic scope are defined at each activation through a Crisis Response Plan (CRP), tailored to the nature and distribution of the eligible emergency. The project is structured around three complementary components. Component 1 related to Emergency Livelihood Support and provides direct income assistance to affected households through fully digital cash transfers, leveraging the established systems of the Productive Safety Net System (PAFS, P175594). Component 2 relates to Provision of Essential Emergency Supplies and Services and finances the procurement and distribution of critical goods and services needed to sustain essential service delivery during and after emergencies. Lastly, Coordination and Management represent the last components and covers the incremental operational and management costs incurred by the Government in conducting emergency response and early recovery efforts.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
