Status	Proposed
Bank Risk Rating	U
Voting Date	2026-12-18
Borrower	The Socialist Republic of Viet Nam
Sectors	Energy
Project Cost (USD)	\$ 308.37 million

Project Description

The Project will finance the construction of the approximately 330 km double-circuit 500 kV Krong Buk - Tay Ninh 1 transmission line and associated substation works, incorporating the World Bank's guidance on climate resilience of the grid. The investment will strengthen the backbone transmission network, relieve congestion on key corridors, enable the evacuation of renewable energy from generation centers to main demand centers, improve the reliability and flexibility of power transmission, reduce technical losses, and help unlock further private investment in solar and wind energy, and improve readiness for cross-border electricity trade. It will also support implementation of the Revised Power Development Plan No. 8 and the Government's clean energy and climate commitments.

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
