Project Description

According to bank's website, the proposed project aims to generate more and better jobs in prioritized agribusiness value chains while improving food and nutrition security. The project targets key constraints across priority value chain clusters through a set of integrated, mutually reinforcing interventions. On the production side, the project strengthens farmer capacity, improves access to inputs, and builds resilience to climate and market shocks. It also expands aggregation, value addition, and market linkages to enable smallholders and agribusinesses to capture greater value along the chain. To underpin these efforts, the project invests in digital public infrastructure and service delivery systems that improve efficiency and transparency across value chains. Finally, it works to improve the policy and regulatory environment to reduce barriers to private investment and crowd in commercial capital at scale.

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: https://www.inspectionpanel.org/how-to-file-complaint
