Project Description

According to bank provided information, the Somalia Health Services Transformation Project will be Phase 1 of the Somalia Education and Health Transformation Multiphase Programmatic Approach (MPA) Program (P519541) which will be implemented over a ten-year horizon through health and education operations contributing to the Program Development Objective (which is being finalized), with a proposed total IDA financing envelope of US$500 million. The MPA aims to establish a long-term platform for sequential and mutually reinforcing investments in human capital while progressively strengthening Government stewardship and supporting a gradual transition towards domestic financing. The parallel education sector project under the MPA will create important opportunities to accelerate human capital development through coordinated investments in building the health workforce. Project Beneficiaries: The main beneficiaries will be: (i) women, children, and adolescents and other people living in the targeted geographic areas which have been strategically selected to improve equitable access; (ii) hard-to-reach groups such as internally displaced persons and nomads who require specialized support given their unique contexts; and (iii) government institutions at the Federal Government of Somalia (FGS) and state levels Federal Member States (FMS) which will receive support to strengthen their stewardship capacity.Project Components: Component 1: Improving coverage and quality of the prioritized EPHS through public and private sector providersComponent 2: Building health workforce skills and jobs Component 3: Strengthening Government stewardship and health system management Component 4: Project management, adaptive learning, and knowledge sharing Component 5: Contingent Emergency Response Component
