Project Description

As stated on the project disclosure page, IFC's proposed project consists of an investment package of up to US\$250 million to Commercial International Bank (CIB), the third largest bank in Egypt and the leading private sector bank by total assets, in the form of: (i) a senior loan of up to US\$100 million with a tenor of 5 or 7 year to finance its growing climate finance business, and (ii) a Basel II compliant Tier II subordinated loan of up to US\$150 million to support the Bank's capital position as well as its expansion of its operations. CIB is a longstanding IFC client and will use the funding and capital support to grow its climate and MSME finance operations. CIB's continued growth in these segments will play a catalytical role in driving their development. The project is expected to be supported by the Market Accelerator for Green Construction Program as described in the Blended Finance Section.

Early Warning System Project Analysis

The IFC categorized the project as FI-1.

Investment Description

- International Finance Corporation (IFC)

Financial Intermediary

Financial Intermediary: A commercial bank or financial institution that receives funds from a development bank. A financial intermediary then lends these funds to their clients (private actors) in the form of loans, bonds, guarantees and equity shares. Financial intermediaries include insurance, pension and equity funds. The direct financial relationship is between the development bank and the financial intermediary.
