Project Description

The general objective of this program is to increase citizens' access to the internet through the transformation and digital inclusion of Mexico, which allows the country to move towards the fourth industrial revolution. To achieve this, the following specific objectives are met: (i) to promote the telecommunications infrastructure in critical and high-performance networks; (ii) promote digital inclusion through the development of digital capacities and skills, especially in marginalized and remote areas; and (iii) promote institutional strengthening that favors digital transformation and inclusion.

Investment Description

- Inter-American Development Bank (IADB)

Contact Information

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
