## Project Description

The objective of this Technical Cooperation is to provide support in the realization of the Ministry of National Education and Professional Development (MENFP) priority technical areas related to: (i) the national evaluations and learning assessments; and (ii) the monitoring and evaluation of the Haiti 2020  2030 Decennial Education Sector Plan (PDEF). The PDEF outlines key priority areas for reforming the education sector in Haiti, including primarily: (i) institutional and governance strengthening; (ii) increasing access to schooling and (iii) enhancing the quality of teaching and learning. Through technically supporting the national evaluations and the monitoring the progress towards the PDEF results more generally, the government will be better able to concretely determine actions and decisions needed to improve educational quality and more effectively identify and address student learning outcome challenges.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
