Knowledge exchange between the Ministry of Energy and Mines (MEM) in Ecuador and the Public Company of Medellin (EPM) in Colombia

Project Description

According to the Bank’s website, the objective of this project is to increase the internal capacities of the Undersecretary of Distribution and Commercialization of Electric Energy of the Ministry of Energy and Mines, through the transfer of knowledge to a team of professionals by the Public Companies of Medellin. This team will be prepared to replicate and implement new guidelines and policies in the electricity distribution sector, with the purpose of improving its efficiency and meeting the expectations and requirements of the demand for electricity at the national level. In addition, it will seek to acquire lessons learned and good practices in the operation and administration of the energy distribution and commercialization system in the region.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
