Project Description

According to the IADB, this technical cooperation (TC) will strengthen the capacity of the Municipality of Panama (MUPA) in territorial planning to promote local development and enhance climate resilience. Specifically, it will: (i) reinforce MUPA's technical and institutional capacities for the development of partial plans that integrate principles of sustainability, equity, and climate resilience; and (ii) design urban investment projects that are technically and financially viable, with the potential to attract public and private investment, aligned with these plans and prioritizing comprehensive planning and climate adaptation strategies.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
