Determining the Potential for Carbon Capture and Storage

### Quick Facts

<b>Countries</b>	Pakistan
<b>Financial Institutions</b>	Asian Development Bank (ADB)
<b>Status</b>	Active
<b>Bank Risk Rating</b>	U
<b>Voting Date</b>	2014-05-14
<b>Borrower</b>	Ministry of Climate Change, Government of Pakistan
<b>Sectors</b>	Agriculture and Forestry, Climate and Environment, Energy, Industry and Trade, Law and Government, Technical Cooperation, Transport
<b>Investment Type(s)</b>	Grant
<b>Investment Amount (USD)</b>	\$ 1.00 million

### **Project Description**

The technical assistance will implement national climate change policy and develop greenhouse gas reduction technologies. It will explore carbon capture and storage as a potential strategy by developing a demonstration schedule, engaging in dialogues with public and private sector entities, and drafting policy statements. In addition, the project will investigate CO2 emitters including energy, agriculture, transportation, and industrial sectors to determine the best type of demonstration schedule.

### Contact Information

Ministry of Climate Change, Government of Pakistan  
Mr. Irfan Tariq, Director General, Ministry of Climate Change  
LD & RD Complex, SectorG-5/2, near State Bank of Pakistan, Islamabad

### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
