Investment Amount (USD)	$ 0.40 million
Project Cost (USD)	$ 0.40 million

Support to Activities in the Agroforestry Sector in the context of Guatemala's Nationally Determined Contribution

Project Description

(i) Provide technical assistance to the Government of Guatemala and relevant local organizations to access climate finance that allows the implementation of sustainable agricultural activities (monitoring and reporting activities on emission reductions); (ii) Finance initiatives of local private sector organizations that allow small farmers to access credit and inclusive financial services to improve productivity and trade in fair and competitive markets; and (iii) Align the IDB's operational agenda with Guatemala's Nationally Determined Contribution (NDC), to enable the application of climate considerations in operations in the agroforestry sector.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
