### **Project Description**

As stated on the project disclosure page, under the proposed project, the Asian Development Bank (ADB) will provide two sovereign loans to Mongolia from its ordinary capital resources, a \$34.4 million concessional loan and a \$22.7 million regular loan, to support the development of value chain financing in four key sub-sectors: (i) livestock and animal husbandry; (ii) crop production; (iii) food; and (iv) light industry. The project is expected to enhance technology adoption of agro-enterprises, to increase primarily the agro-processing capacity and secondly agricultural production in Mongolia, and hence increase value addition to agricultural resources. The increased capacity will lead to employment generation, and indirectly benefit herders, farmers, and primary processors through the PPEs' increased demand for raw materials.
