ENEL LATAM - BRAZIL DISTRIBUTION (FL 20200823)

## Quick Facts

<b>Countries</b>	Brazil
<b>Specific Location</b>	Sao Paulo region
<b>Financial Institutions</b>	European Investment Bank (EIB)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	U
<b>Borrower</b>	ELETROPAULO METROPOLITANA ELETRICIDADE DE SAO PAULO SA
<b>Sectors</b>	Energy
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 200.00 million
<b>Project Cost (USD)</b>	\$ 422.00 million

## Project Description

According to the Bank's website, this investment is an allocation of funds under the Enel Energy & Renewable framework loan, consisting of electricity distribution investments in Brazil. These aim to extend and modernise the network, add new renewable energy capacity to the network, reduce losses and improve quality and safety of supply.

The project consists of the financing of the modernisation and extension of the Promoter's electricity distribution networks in the São Paulo region and of the installation of new remote control systems and protections of the grid, with the aim of increasing its reliability, resilience and reducing the level of losses, leading to better quality and safety of energy supply. A portion of the investment will also enable the connection to additional renewable generation units.

The investment comprises the construction or replacement of LV and MV overhead lines up to a max of 34.5 kV, the development of new electricity distribution facilities, including new metering substations and transformers, as well as other operations of refurbishment, reconstruction or modernisation of existing facilities. The investments are located mainly in urban or sub-urban areas of Sao Paulo. The majority of the interventions are focused on improving metering devices, installation of cables spacer, re-connector and trip-saver that if located in the EU, would fall neither under Annex I nor under Annex II of the EIA Directive. The remaining components do not require an EIA following Brazilian regulation based on National legislation Resolução Conama nº 1 of 23/01/1986 and the State legislation Resolução Sima nº 29, of 29/04/2020 due to the fact that they are extensions of a previous existing network and the voltage is below the threshold of 69 kV.

### ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

### ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
