

 Early Warning System

DFC-RUMICHACA-PASTOTOLL
Rumichaca-Pasto Toll Road (Colombia)

Quick Facts

Countries	Colombia
Financial Institutions	US International Development Finance Corporation (DFC)
Status	Approved
Bank Risk Rating	A
Borrower	Concesionaria Vial Union del Sur SAS
Sectors	Construction, Infrastructure, Transport
Investment Amount (USD)	\$ 250.00 million
Project Cost (USD)	\$ 931.80 million

Project Description

According to the Agency's document, this project finances the design, construction and operation of an 84km corridor of a tolled, dual-carriageway highway in southwestern Colombia, including expansion of an existing single-carriage corridor to a dual-carriage highway, and construction of 27km of new highway.

The major environmental and social concerns related to the project include impacts to community health and safety resulting from increased traffic, influx of non-local workers and non-local peoples, noise and vibration; the need for robust and occupational health and safety procedures; soil erosion and spoil management; impacts to biodiversity; and the need for a robust environmental and social management system with appropriate organizational capacity given simultaneous multiple work fronts and ambitious timeline for construction.
