PROJECT EMILI - IMERYYS DEMO-PLANT

## Quick Facts

<b>Countries</b>	France
<b>Specific Location</b>	Allier region
<b>Financial Institutions</b>	European Investment Bank (EIB)
<b>Status</b>	Proposed
<b>Bank Risk Rating</b>	U
<b>Borrower</b>	Imerys SA
<b>Sectors</b>	Construction, Energy, Industry and Trade, Mining
<b>Investment Type(s)</b>	Loan
<b>Investment Amount (USD)</b>	\$ 67.84 million
<b>Loan Amount (USD)</b>	\$ 67.84 million
<b>Project Cost (USD)</b>	\$ 136.80 million

## Project Description

According to the EIB, the project concerns the construction of two demonstration plants located in central France for the production of battery grade lithium hydroxide monohydrate. The concentrator demonstration plant will be located at the mine site near Echassières and the conversion demonstration plant will be located in an industrial park near Montluçon. The project will not produce commercial quantities of material.

The demonstration plants are designed to prove the selected technology, allowing the promoter to de-risk the future commercial plants by identifying issues and reducing the time to ramp-up the technology. Additionally, the demonstration plants will provide the opportunity to train the operations teams leading to an acceleration in the ramp-up in production rate and reducing the time to bring the product to the market.

The project and subsequent commercial plants address the growing demand for lithium for battery applications in the EU and aligns with the goals of the green transition, particularly the decarbonisation of the transport sector.

---

## Investment Description

- European Investment Bank (EIB)

---

### Private Actors Description

As stated by Bloomberg, Imerys provides mineral-based specialty solutions. The Company offers ground calcium carbonate, roofing clay, ceramic minerals, graphite flakes, and other products. Imerys serves construction, automotive, consumer goods, animal care, cosmetics, pharmaceutical, and food industries worldwide.

## ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.eib.org/en/infocentre/registers/request-form/request-form-default.htm>

## ACCOUNTABILITY MECHANISM OF EIB

The EIB Complaints Mechanism is designed to facilitate and handle complaints against the EIB by individuals, organizations or corporations affected by EIB activities. When exercising the right to lodge a complaint against the EIB, any member of the public has access to a two-tier procedure, one internal - the Complaints Mechanism Office - and one external - the European Ombudsman. A complaint can be lodged via a written communication addressed to the Secretary General of the EIB, via email to the dedicated email address: [complaints@eib.org](mailto:complaints@eib.org), by completing the online complaint form available at the following address: <http://www.eib.org/complaints/form> via fax or delivered directly to the EIB Complaints Mechanism Division, any EIB local representation office or any EIB staff. For further details, check: [http://www.eib.org/attachments/strategies/complaints\\_mechanism\\_policy\\_en.pdf](http://www.eib.org/attachments/strategies/complaints_mechanism_policy_en.pdf)

When dissatisfied with a complaint to the EIB Complaints Mechanism, citizens can then turn towards the European Ombudsman. A memorandum of Understanding has been signed between the EIB and the European Ombudsman establishes that citizens (even outside of the EU if the Ombudsman finds their complaint justified) can turn towards the Ombudsman on issues related to 'maladministration' by the EIB. Note that before going to the Ombudsman, an attempt must be made to resolve the case by contacting the EIB. In addition, the complaint must be made within two years of the date when the facts on which your complaint is based became known to you. You can write to the Ombudsman in any of the languages of the European Union. Additional details, including filing requirements and complaint forms, are available at: <http://www.ombudsman.europa.eu/atyourservice/interactiveguide.faces>
