<b>Investment Type(s)</b>	Advisory Services
<b>Investment Amount (USD)</b>	\$ 0.40 million
<b>Project Cost (USD)</b>	\$ 0.40 million

### **Project Description**

According to the bank document, the project aims to improve the management of climate change and support local governments priorities in realizing an ecological civilization in Beijing, Hebei, and Tianjin (BHT).

And ADB will engage a consulting firm using output-based terms of reference, full technical proposal, and fixed budget selection method. This method is preferred so that all responding-firms can determine how they can best deliver the detailed outputs for the expected price, utilizing the best combination of inputs.

The consulting firm will lead an international study tour involving six officials visiting two countries over 10 days and linking with knowledge partners. The firm will host all workshops and training sessions under the TA and will disseminate flyers and materials related to these.

9 San Li He Road, Haidian District

Beijing 100835

People's Republic of China

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
