Project Description

From the IDB: "The intended impacts of the project include reductions in health risks associated with indoor air quality in poor and low-income households in Honduras, time and cost savings in household fuel use, and reductions in greenhouse gas emissions. The intended result is to scale up the proper use and adoption of clean cookstoves in poor and low income households in Honduras through sustainable, market-based solutions. The project will aim to have a transformative impact on the market for clean cookstoves by enabling the market conditions for new business models to flourish and develop and by leveraging and strengthening the existing private sector capacity in Honduras."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
