Project Description

According to the bank, the objective of this technical cooperation is to provide technical assistance to Strengthening Financial integrity in Guyana (SARA) to ensure that its institutional design meets international best practices and to develop the necessary tools to manage the financial resources in an effective, efficient and transparent manner. The main challenges that this TC aims to address include (i) limited institutional capacity; (ii) limited technical knowledge of its staff and; (iii) limited technological capacity to collect and analyze data.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
