Efficient Use of Firewood and Alternative Fuels in Indigenous and Rural
Communities in Guatemala

Quick Facts

Countries	Guatemala
Financial Institutions	Inter-American Development Bank (IADB)
Status	Proposed
Bank Risk Rating	C
Borrower	Government of Guatemala
Sectors	Climate and Environment, Energy
Investment Type(s)	Grant
Investment Amount (USD)	\$ 11.00 million
Project Cost (USD)	\$ 11.00 million

Project Description

The program's general objective is to reduce greenhouse gas emissions (GHG) in the energy sector in Guatemala, through reducing consumption - and efficient use - of firewood. The specific objectives are: (i) reducing barriers which limit the product and mass usage of Improved Stoves; (ii) facilitating access to finance for fabrication and purchase of Improved Stoves and (iii) demonstrating the Improved Stoves' potential for reducing GHG.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
