Project Description

The proposal is to mobilize the capacity for innovation to attend with new technological solutions to the opportunities that arise as necessary for reactivation and resilience for an underserved market segment. Thus, it is proposed to develop a first pilot experience to demonstrate that saving lives and jobs are not conflicting priorities and that there are ways to prepare SMEs to be able to resume activities in the face of different shocks.

Investment Description

- Inter-American Development Bank (IADB)

The countrie's couterpart ammount to USD 850,000.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
