Temane Regional Electricity Project

Quick Facts

Countries	Mozambique
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	A
Voting Date	2019-02-28
Borrower	Government of Mozambique
Sectors	Energy
Investment Type(s)	Loan
Investment Amount (USD)	\$ 300.00 million
Project Cost (USD)	\$ 1,180.00 million

Project Description

According to bank documents, the project objectives are to increase electricity generation capacity with private sector participation and to enhance transmission capacity for domestic and regional market.

The proposed project includes the following components:

1. Construction of Temane Transmission Project (TTP). This component includes construction of:
 - i. three 400-kV substations (Vilanculos, Chibuto, and Matalane) and expansion of Maputo substation;
 - ii. 560-km, 400-kV single-circuit transmission line Vilanculos-Chibuto-Matalane-Maputo; and
 - iii. other equipment (busbar and line reactors, telecommunications, SCADA with control center).
2. Construction of privately-funded Mozambique-Gas-to-Power (MGtP) generation project. This component includes construction of:
 - i. 400-MW gas-fired power plant at Temane (near Vilanculos); and
 - ii. a 25-km, double circuit, 400-kV transmission line from the MGtP plant at Temane site to a 400-kV substation at Vilanculos, linking the power plant to the national transmission grid.
3. EdM financial strengthening. EdM is in the process of developing a financial strengthening plan, that is likely to include measure for efficiency improvements (reduction of losses), supply cost optimization, tariff adjustments, recapitalization (possibly to include converting some long-term on-lent loans into Government equity, possible equity injection), reducing the accounts payable and accounts receivable, readjustment in investment financing (especially for expansion of access), etc. This component could include credit enhancement to EdM to help restructure or refinance some of its obligations, and/or technical assistance to help implement the financial strengthening plan.
4. Component 4: Technical assistance and project implementation support. This component will include funding to support MIREME in advancing legal, institutional, and regulatory framework in the sector, strengthening the capacity of the key sectoral institutions (policy and regulatory), and strengthening/supporting EdM in implementing the financial strengthening plan, and to manage implementation of the project.

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org.

You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
