Project Description

As stated by the World Bank, the objective of the Project is to improve accessibility to markets for small rural producers in the Selected Areas by:
(a) promoting productive alliances between different small rural producer organizations and purchasers;
(b) empowering rural producers through the establishment and strengthening of self-managed grass-root organizations;
(c) increasing access to productive assets, technology and financial services;
(d) promoting more effective, responsive and accountable service organizations at the local level; and
(e) enhancing environmental sustainability of productive practices.

The Project is a follow on operation to the successful PAR I, which tested the model for improving market access.
