Amazonian energy: building climate resilience through the
diversification of agroforestry systems...

Quick Facts

Countries	Peru
Specific Location	San Martín
Financial Institutions	Inter-American Development Bank (IADB)
Status	Approved
Bank Risk Rating	U
Voting Date	2016-06-28
Borrower	Government of Peru
Sectors	Agriculture and Forestry
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.25 million
Project Cost (USD)	\$ 0.38 million

Project Description

The aim of the project is to contribute to increase the productive assets and future incomes of smallholder farmers and rural employment in the San Martín region through the establishment of a new value chain based on guayusa. The expected result is to develop the first value chain for the production and processing of guayusa in Peru.

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IDB/ IIC

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
