Combining income and forest protection: acai production

Quick Facts

Countries	Brazil
Specific Location	Southern Brazilian
Financial Institutions	World Bank (WB)
Status	Proposed
Bank Risk Rating	U
Borrower	Government of Brazil
Sectors	Agriculture and Forestry
Investment Type(s)	Grant
Investment Amount (USD)	\$ 0.20 million
Project Cost (USD)	\$ 0.20 million

Project Description

To implement DM2008 project. Project will specifically engage 400 Southern Brazilian smallholders in the increase of açai berry production from the juçara tree (*Euterpe edulis*); equip a farmer's cooperative processing plant; develop marketing initiatives; and raise participating farmer's income by approximately 40%. Approximately 1,000 hectares will be covered with açai production systems. The project will serve as a model for the Juçara Network # a collaborative effort of organizations promoting açai production in the Atlantic Forest.

Investment Description

- World Bank (WB)

ACCESS TO INFORMATION

To submit an information request for project information, you will have to create an account to access the Access to Information request form. You can learn more about this process at: <https://www.worldbank.org/en/access-to-information/request-submission>

ACCOUNTABILITY MECHANISM OF THE WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. Information on how to file a complaint and a complaint request form are available at: <https://www.inspectionpanel.org/how-to-file-complaint>
