WAPP-APL4 (Phase 1): Cote d'Ivoire Liberia Sierra Leone and Guinea
Regional Interconnector

Quick Facts

Countries	Guinea, Ivory Coast, Liberia, Sierra Leone
Financial Institutions	World Bank (WB)
Status	Active
Bank Risk Rating	U
Voting Date	2017-11-17
Borrower	The West African Power Pool (WAPP) Secretariat
Sectors	Energy
Investment Amount (USD)	\$ 122.38 million
Project Cost (USD)	\$ 126.98 million

Project Description

The development objectives of the Power Interconnection Project for Côte d'Ivoire, Liberia, Sierra Leone, and Guinea (CLSG) are: (i) to reduce the cost of and increase the electricity supply at utility level, and to increase the export capability of Cote d'Ivoire, and (ii) to increase the technical integration of the West African Power Pool (WAPP) network. The additional financing (AF) aims to fill a financing gap due to several factors of United States (U.S.) 104.9 million dollars of the WAPP CLSG power interconnection component to avoid delays in completing the line. It also provides U.S. 17.5 million dollars of AF for the WAPP integration and technical assistance component to scale up the impact of this component, and to fill a financing gap created by the fluctuations of the special drawing rights (SDR) and U.S. dollar exchange rate.

This project is part of the Programme for Infrastructure Development In Africa (PIDA)

ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing ipanel@worldbank.org. You can learn more about the Inspection Panel and how to file a complaint at: <http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
