TZ-Rural Electrification Expansion Program

## Quick Facts

<b>Countries</b>	Tanzania
<b>Financial Institutions</b>	World Bank (WB)
<b>Status</b>	Active
<b>Bank Risk Rating</b>	B
<b>Voting Date</b>	2016-06-21
<b>Borrower</b>	THE UNITED REPUBLIC OF TANZANIA
<b>Sectors</b>	Hydropower
<b>Investment Amount (USD)</b>	\$ 200.00 million
<b>Project Cost (USD)</b>	\$ 225.00 million

## Project Description

The development objectives of Rural Electrification Expansion Project for Tanzania are: (a) to increase access to electricity in rural areas; and (b) to scale-up the supply of renewable energy in rural areas while strengthening sector institutional capacity. The Rural Energy Agency (REA) and the private sector are implementing the National Rural Electrification Program (NREP), the government program, during 2013–2022, as outlined in the Prospectus. The Government of Tanzania (GoT) plans to achieve about 1.3 million connections in rural areas (including public facilities), increasing the average access rate to electricity (both urban and rural) from the current 24 percent to 35 percent by 2022. This Program-for-Results (PforR) aims to support three of the electrification avenues of the NREP identified in the Prospectus: (i) grid extension; (ii) off-grid electrification; and (iii) within the category of offgrid electrification, renewable technologies, including solar photovoltaic (PV). This program is strategically relevant and fully aligned with TDV 2025. This PforR will support the government in implementing the NREP based on these existing plans and will support the targets to be determined in the more detailed Master Plan, as the government adopts and implements it over time. It supports a subset of the NREP, consisting of a time slice of the grid investments outlined in the Prospectus (2016–2022) and the off-grid investments and distributed technologies by the private sector, implemented by the REA. In addition, PforR will support the joint efforts of the GoT and Development Partners (DPs) in strengthening the capacity of the relevant sector institutions.

## ACCOUNTABILITY MECHANISM OF WORLD BANK

The World Bank Inspection Panel is the independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by a World Bank-financed project. If you submit a complaint to the Inspection Panel, they may investigate to assess whether the World Bank is following its own policies and procedures for preventing harm to people or the environment. You can contact the Inspection Panel or submit a complaint by emailing [ipanel@worldbank.org](mailto:ipanel@worldbank.org).

You can learn more about the Inspection Panel and how to file a complaint at:

<http://ewebapps.worldbank.org/apps/ip/Pages/Home.aspx>.
