### Project Description

According to the project document, the proposed project is timely and essential to address some of the city's severe development challenges including:

- (i) economic dependency on few sectors with insufficient value added locally;
- (ii) poor urban livability due to inadequate urban infrastructure and services provision; and
- (iii) urban and river flooding and the impact of climate change which are key limitations to the city's sustainable development.

Therefore, the project hopes to bring environmentally sustainable, low-carbon, climate-resilient, and green urban and economic development of Yanji City achieved

#### ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
