Project Description

IDB: SOCIAL INVESTMENT-LABOR POLICY

"The main objective of the TC is to continue the support of the Bank in this area, this time expanding the scope of this work to the Dominican Republic and focusing on the implementation of actions already identified in the roadmap and action plan that has been developed for The Bahamas. Specifically, this TC will consist of two main components: (i) the creation of a roadmap and action plan for the skills development system of the Dominican Republic and in-country workshops with high-level stakeholders to validate their feasibility; and (ii) implementation of pilot projects to materialize agreed-upon elements contained in the roadmap and action plan for The Bahamas, focusing on the process of private sector engagement."

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
