## Project Description

According to ADB website, the proposed Project will address the key issue of high cost of transport across Manila and more specifically on the major transport corridor of the Epifanio de los Santos Avenue (EDSA), by reducing travel time, increasing passenger throughput; improving connectivity between different transport modes and the surroundings areas; and improving the ability of government to manage and operate the various transport systems that run along EDSA in a more efficient and effective way. The indicative loan amount of \$500 million will improve all major transport modes along EDSA, Metro Rail Transport Line 3 (MRT-3), buses, and private vehicles, as well as improve pedestrian facilities.

**ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
