Advanced Renewable Energy Technology Demonstration

ADB-51421-001

Quick Facts

Countries	China
Specific Location	Maerkang (Barkam), Sichuan province
Financial Institutions	Asian Development Bank (ADB)
Status	Active
Bank Risk Rating	C
Voting Date	2018-08-31
Borrower	People's Republic of China
Sectors	Energy
Investment Type(s)	Advisory Services
Investment Amount (USD)	$ 0.50 million
Project Cost (USD)	$ 0.70 million

Project Description

According to the bank document, the knowledge and support technical assistance (TA) will increase the readiness of the Government of Aba Prefecture for investments in climate-resilient distributed heating based on renewable energy in Barkam County in Sichuan Province. The TA will assist the local government in developing knowledge about and preparing a pre-feasibility study on renewable energy-based climate-resilient distributed heating systems.

The TA is in the country operations business plan, 2018 2020 of the Asian Development Bank (ADB) for the People's Republic of China (PRC). It fully aligns with ADB's country partnership strategy, 2016 2020 for the PRC's priority on managing climate change and the environment for an ecological civilization. It will support the strategic priorities of Strategy 2030 to build climate resilience and enhance environmental sustainability.

Investment Description

- Asian Development Bank (ADB)

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
