Project Cost (USD)	$ 0.70 million

Support to the Structuring of Metroriel Project: Socio-environmental and Sustainability Management

Project Description

From the IDB: "The objective is to support the structuring of the Metroriel Project and to strengthen the capacity of the public sector to overcome critical project issues (particularly socio-environmental and sustainability aspects) and to manage a new railway public asset to provide massive transport services. The purpose is to create and assist a local counterpart technical team (Metroriel Unit) within the state-owned enterprise Ferrocarriles de Guatemala (FEGUA) to lead project preparation in socio-environmental aspects, project engineering and service and tariffs regulation. The TC will also strengthen the capacity of the Dirección de Crédito Público in assessing the financing structure of the project, as the government intends to employ a PPP modality."

Investment Description

- Inter-American Development Bank (IADB)

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
