## **Project Description**

The proposed technical assistance (TA) in the amount of \$750,000 sourced from the TASF-Others Fund will provide guidance on improving quality of results-based project design through DMFs, with customized advice for different lending modalities such as policy-based lending, results-based lending, and multitranches financing facilities. It will support operational research in issues that affect delivery of desired project outputs and outcomes and disseminate lessons that can be used to improve project design and delivery. The TA will also expand efforts to capture the transformation that ADB operations produce at the beneficiary level and support the collaborative work with and multilateral development banks (MDBs); including on benchmarking the performance of MDBs through the Common Performance Assessment System report.

### **Project Outputs**

1. Capacity in preparing design and monitoring frameworks developed
2. Lessons from operations documented and disseminated
3. DMC experiences documented and disseminated
4. Multilateral development bank performance benchmarked and disseminated

**ACCOUNTABILITY MECHANISM OF ADB**

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
