Project Description

According to the ADB, the project will make Cambodia's water resources management climate-adaptive and sustainable to support social and economic growth and protect ecosystems.

The outcome of the project will be to make livelihoods in the target river basin group climate and disaster resilient through climate-adaptive integrated water resources management.

The project outputs are:

- Strengthening of planning, coordination, and climate change adaptation capacities of water resources management;
- Increasing water supply capacity during dry season; and
- Reducing flood risks during wet season.

Early Warning System Project Analysis

ACCESS TO INFORMATION

You can submit an information request for project information at: <https://www.adb.org/forms/request-information-form>

ADB has a two-stage appeals process for requesters who believe that ADB has denied their request for information in violation of its Access to Information Policy. You can learn more about filing an appeal at: <https://www.adb.org/site/disclosure/appeals>

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>.
