Project Description

The Project involves the construction, operation, and maintenance of water distribution and sewage collection and treatment services across 74 municipalities in the state of Sergipe, Brazil, directly benefiting approximately 2.3 million people. The Project is governed by a 35-year concession agreement granted to Igua Sergipe S.A.

Total capital expenditures are estimated at approximately R$6 billion through 2033, allocated to water supply and sanitation investments. Water-related capex will focus on expanding and rehabilitating distribution networks and replacing water meters as part of a water-loss reduction program. Sanitation investments will include the development of new sewage collection networks and interceptors, the construction of new wastewater treatment plants, and the installation of new sewage pumping stations.

ACCOUNTABILITY MECHANISM OF IDB / IDB INVEST

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IDB Invest)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IDB Invest is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at http://www.iadb.org/en/mici/mici,1752.html (in English) or http://www.iadb.org/es/mici/mici,1752.html (Spanish).
