### Project Description

As stated by the IADB, the objective of the technical cooperation is to facilitate the technical exchange between Chile Compras and four (4) Nuevo Leon state government officials on issues related to the management of framework agreements and electronic public procurement systems. The Bank's support will consist of financing airfare and hotel for 4 Nuevo Leon government officials from Monterrey to Santiago, Chile, during the last quarter of 2023. This objective is consistent with the objectives and standards of the Strategic Program for the Development of Countries Financed with Ordinary Capital whose objectives include: "strengthening the technical and management capacity of national governments" and "expanding access to intra-regional experiences and promoting the exchange of cooperative expertise among all borrowing member countries." (GN-2819-1, Section II, paragraph 2.1).

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
