Project Description

According to the bank website, the proposed project "will provide technical analysis and assessments to assist the government and the ADB to develop the proposed Strengthening Urban Health Services Project. The TRTA is justified given the scope of activities and specialist nature of skills required. Due diligence will be undertaken based on the proposed project design. The TRTA will also build the capacity of the Ministry of Health and Medical Services (MHMS) to administer the ensuing project, and enhance project readiness for timely implementation given ADB's relatively new engagement with MHMS..."

ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: http://www.adb.org/site/accountability-mechanism/main
