## Project Description

According to the Bank's website, the TC objective is to promote the increase in statistical capacity to generate timely and adequate information on emerging and relevant issues for the region, through the use of innovative instruments, methods, and sources. To achieve this objective, the TC will support the design of data collection instruments that can be adopted and adapted by the participating countries. It will also promote the exploration of the use of new data sources in a sustainable way. The TC will focus on relevant issues to public policy in Latin America and the Caribbean in which the phenomena to be measured have evolved rapidly (such as, citizen security, labor markets, and digitalization).

### ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to [MICI@iadb.org](mailto:MICI@iadb.org). You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
