Project Description

The objective of the TC is to support the Ministry of Education in its transformation efforts towards a more digital, resilient, inclusive, and quality education system. This general objective will be pursued through the following specific objectives: (i) strengthening primary schools' digital infrastructure, resiliency and technology preparedness for climate change by (a) conducting an infrastructure audit to assess resiliency to climate change and technology preparedness, and (b) develop an action plan towards the creation of SMART and resilient schools in Barbados that includes upgrading existing technology; and (ii) strengthening pedagogical quality in primary, secondary and tertiary education by (a) developing a plan to reform teacher training and professional development in technology; (b) defining teacher certification; and (c) developing a training plan for ICT coordinators. The objective of the TC is to: (a) conduct an audit of school infrastructure to make schools more resilient to climate change; (b) prepare an action plan to create smart schools in Barbados by upgrading existing technology; and (c) develop a plan to reform teacher training and professional development.

ACCOUNTABILITY MECHANISM OF IADB

The Independent Consultation and Investigation Mechanism (MICI) is the independent complaint mechanism and fact-finding body for people who have been or are likely to be adversely affected by an Inter-American Development Bank (IDB) or Inter-American Investment Corporation (IIC)-funded project. If you submit a complaint to MICI, they may assist you in addressing the problems you raised through a dispute-resolution process with those implementing the project and/or through an investigation to assess whether the IDB or IIC is following its own policies for preventing or mitigating harm to people or the environment. You can submit a complaint by sending an email to MICI@iadb.org. You can learn more about the MICI and how to file a complaint at <http://www.iadb.org/en/mici/mici,1752.html> (in English) or <http://www.iadb.org/es/mici/mici,1752.html> (Spanish).
