

 Early Warning System

CDB-2020-PGHIGHWAYBELIZE

Phillip Goldson Highway Upgrading

Quick Facts

Countries	Belize
Specific Location	Biscayne, Santa Elena
Financial Institutions	Caribbean Development Bank (CDB)
Status	Active
Bank Risk Rating	U
Voting Date	2020-12-01
Borrower	Government of Belize
Sectors	Infrastructure, Transport
Project Cost (USD)	\$ 59.87 million

Project Description

According to the CDB, the project will increase safety, accessibility, efficiency and resilience of the Philip Goldson Highway between miles 24.5 to 92, and the Remate Bypass; and improve capacity for informed decision-making for livelihood enhancement along the highway and the Remate Bypass.

More specifically, as stated on the executing agency's website, the Philip Goldson Highway and Remate Bypass Upgrading Project will include the installation of additional and new drainage structures for the highway as well as side roads and driveways to improve climate resilience; road safety features including line marking, road studs, traffic signs, bus lay-bys and traffic calming measures in all villages along the entire route. Additional road safety features in village locations only, includes pedestrian/bicycle paths, pedestrian crossings, and rumble strips.
