### Project Description

According to the bank document, "the project aims to expand low-cost energy infrastructure, while strengthening the private sector and promoting investment through an international competitive bidding process. The project will supply renewable electricity at a rate in parity with other sources and will demonstrate to the government, multinational banks, and other international financiers that private sector-led renewable energy development can be undertaken successfully in Cambodia."

## ACCOUNTABILITY MECHANISM OF ADB

The Accountability Mechanism is an independent complaint mechanism and fact-finding body for people who believe they are likely to be, or have been, adversely affected by an Asian Development Bank-financed project. If you submit a complaint to the Accountability Mechanism, they may investigate to assess whether the Asian Development Bank is following its own policies and procedures for preventing harm to people or the environment. You can learn more about the Accountability Mechanism and how to file a complaint at: <http://www.adb.org/site/accountability-mechanism/main>
